

INSTALLATION INSTRUCTIONS - COLLAPSIBLE PRECISION STOCK

WARNING: Before beginning the installation process prioritize safety by ensuring the firearm is unloaded, the chamber is empty, the safety is engaged, and the firearm **REMAINS** pointed in a safe direction.

Follow these step-by-step instructions for the removal and re-installation of Components, adhering to safety protocols throughout.

If necessary, carefully remove the existing stock in accordance with the manufacturer's recommendations, taking care to avoid any damage to the receiver.

Materials Provided - Collapsible Precision Stock

FIG 1

Ensure the Lockout is pushed to the rear of the stock.

1

FIG 2

Align stock with the buffer tube and pull the adjustment lever down firmly until the stock can smoothly slide onto the buffer tube. Take care not to slide the stock on too far.

2

FIG 3

The adjustment lever should now allow the stock to move freely without coming off the firearm and installation is complete. When desired placement of the stock on the buffer tube is reached slide the lockout forward to secure the stock onto place.
